

*** PLEASE SHARE ACROSS KINGS COUNTY ***

All,

As of Tuesday, October 7th,

- Lake George Wildfire:
 - Classified as “Out of Control” by NS DNR
 - Estimated Area: 288 hectares
 - All homes around lake George have been evacuated as well as all homes on the west side of Aylesford Lake.
 - **No Structures have been lost to wildfire**

Meal Support for Lake George Wildfire Evacuees

- **Salvation Army Food Truck**
 - The Salvation Army Canteen Truck will be on site at the Louis Millett Centre in New Minas by 12:00pm, to support Lake George Wildfire Evacuees with meals ready to serve starting at 1:00pm
 - Meal service will continue throughout the afternoon until 6:00pm
 - The Salvation Army team is prepared to serve up to 50 residents each day and will have the capacity to scale up if required
 - The Food Truck is scheduled to operate for the next seven days and can extend support if required

Donations – Canadian Red Cross:

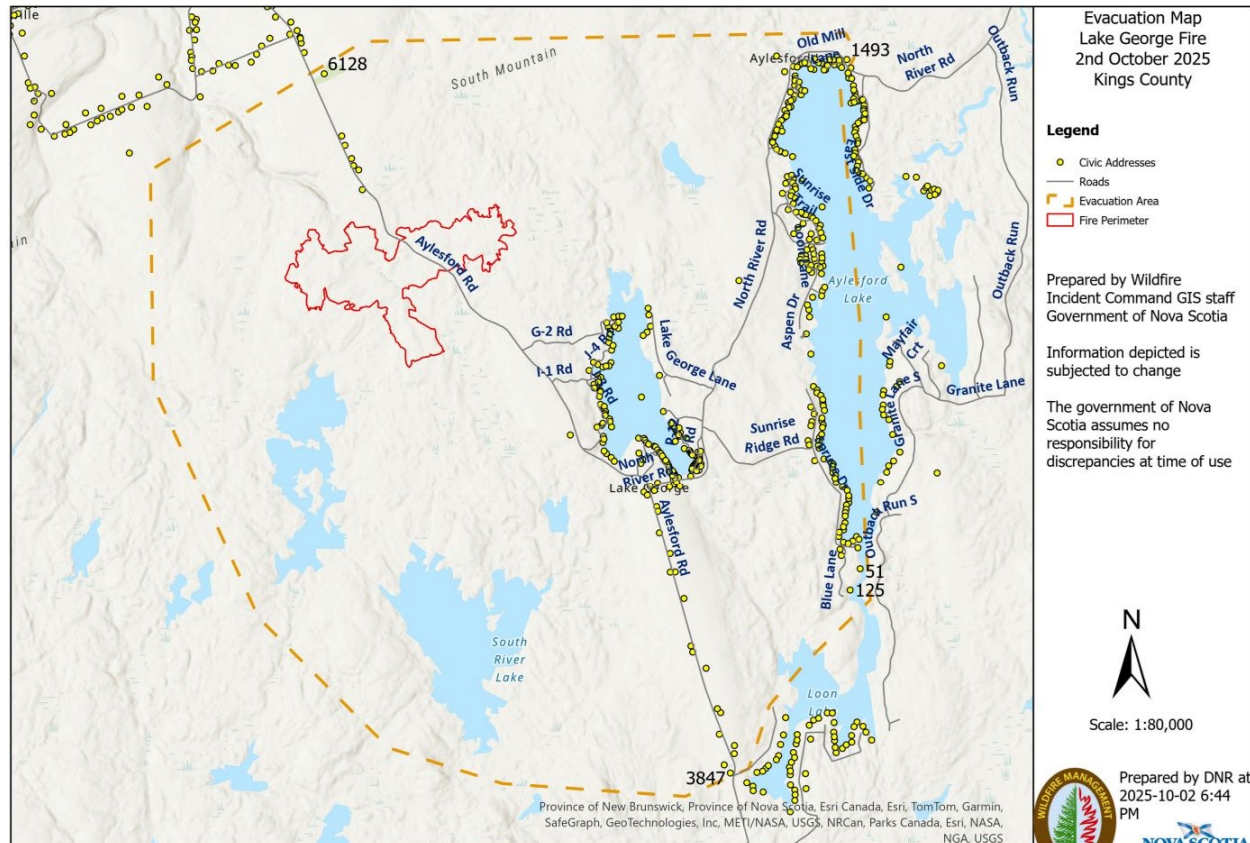

- The Canadian Red Cross is currently accepting donations of new, packaged food and household items at the Louis Millett Centre, located at 9489 Commercial Street, New Minas.
- Pre-packaged healthy snacks, water and juice boxes are also appreciated.

Situation Update

- The Kings County Emergency Coordination Centre is activated, and public inquiries can be called into the **Public Hotline: 902-690-6112**
- The Canadian Red Cross Reception Centre/Emergency Shelter has been activated at the Louis Millett Centre in New Minas
 - **Evacuee Registration:**
 - Evacuees are encouraged to register in-person with the CRC Reception Centre
 - Phone Registration: Individuals impacted by the situation who wish to register by phone can call **1-800-863-6582**. Please leave a message, and a volunteer based in Atlantic Canada—on standby to assist—will return your call from 8:00am to 10:00pm daily.
 - As of 10:30 approximately 205 households have registered and 391 individuals have registered at the CRC Reception Centre
 - **Donations:**
 - Donation inquiries may be called into the 1-800 Canadian Red Cross number provided, but should not be delivered directly to the Incident Command Post at the Morristown Community Centre
- The Evacuation Map will be updated and posted to Kings REMO Website (www.KingsREMO.ca subject to any further updates by NS Department of Natural Resources)

- 2025-10-03 [NS Department of Emergency Management]: “The current estimated size of the Lake George fire is 250 hectares. The active wildfire zone is shown on this updated map.

There is no change to the evacuation zone, which is larger than the fire zone to keep people safe in case the fire spreads quickly.”

State of Local Emergency

- A State of Local Emergency was declared Monday, September 29th and will be in effect through to October 6th subject to a change in conditions for the wildfire.
- The State of Local Emergency was renewed Monday, October 6th and will be in effect through to Monday, October 13th

Evacuation Alerts/Orders:

- 2025-09-29, 6:00pm: Evacuation Order – residents from the southern boundary of Lake George, to the Northern Boundary of Lake George to evacuate
- 2025-09-29, 8:59pm: Evacuation Order Update – Old Mill Lane, southwest to Simpson Cove Lane
- 2025-09-29, 9:33pm: Evacuation Order Update – Simpson Cove Rd to the south, along both sides of North River Rd, to Aylesford Lake Beach (580 North River Rd)
- 2025-09-30, 8:07am: Evacuation Alert – Southwest of Aylesford Lake (Birch Lane, Spruce Drive and Blue Lane)
- **2025-10-01, 10:15am: Evacuation Order Update:**

1. Aylesford Rd from (and including) Fox Mountain Campground to Civic 3847 Aylesford Rd
2. All civics on Spruce Dr, Birch Lane and Blue Lane
3. All civics between 5 North River Rd to 1493 North River Rd

Road Closures:

- Road closures expanded to support Evacuation Order Update:
 - On Aylesford Rd at the Fox Mountain Campground
 - Aylesford Rd at Civic 3847
 - North River Rd at Old Mill Lane

Re-Entry Reminder – Lake George Wildfire Evacuation Zone:

- Kings REMO is reminding all evacuees that the evacuation order remains in effect and that **NO** residents are permitted to re-enter the evacuation zone until it is declared safe to do so.
- Unauthorized re-entry not only places individuals at serious personal risk, but also endangers first responders, emergency crews, and wildfire operations working in the area.
- Security and law enforcement personnel are actively monitoring access points. Anyone found entering the evacuation area without authorization may be subject to removal or enforcement actions under the Nova Scotia Emergency Management Act.
- Re-entry will only occur when:
 - **Fire and safety officials confirm that the area is safe;**
 - **Critical infrastructure (power, water, roads) is restored to a basic operational level; and**
 - **Health, safety, and environmental assessments have been completed.**
- When re-entry is authorized, Kings REMO will issue an official notification through:
 - Alert Ready (cell phone and broadcast alerts)
 - Kings REMO website (www.KingsREMO.ca) and social media
 - Municipal websites
 - Local media outlets
 - Red Cross Registration notifications (for evacuees who registered at the Reception Centre)
- **We understand the stress and uncertainty evacuees are facing. Please know that every effort is being made to restore access as soon as it is safe. Your cooperation is essential to ensuring the safety of your community and those working to protect it.**

Air Quality:

- There is an Environment and Climate Change Canada [Special Air Quality Statement in effect for Kings County](#)
- The Air Quality Health Index is forecast to reach 7 in smoke Monday, October 6th in Kings County
- **Wildfire Smoke and Your Health**
As wildfires burn through forests and grasslands, they produce smoke. Smoke can be a major source of air pollution for people in Canada. Wildfire smoke may be carried thousands of kilometres from the fire zone. This means smoke can impact air quality in areas close to and far away from the wildfire.

Wildfire smoke can cause a variety of symptoms or health effects that can range in severity. Some symptoms or health effects are more common than others.

How You Can Support Relief Efforts:

We know many community members are asking how they can help during this emergency. Your support means so much to evacuees, first responders, and all those working hard to keep Kings County safe. Here are some safe and effective ways to contribute:

Support evacuees directly through the Canadian Red Cross

- The Canadian Red Cross is leading evacuee support at the Louis Millett Centre.

Help our firefighters and first responders

- Do not bring food or supplies directly to fire lines or stations. If you'd like to support, please connect with your local Fire Department or the Kings County Fire Service Association to see how donations (like gift cards for gas, meals, or groceries) can be pooled safely.

Back our community organizations

- Local service groups, churches, and community organizations are also stepping up to provide meals, temporary supports, and connection for evacuees. Consider contributing to these efforts.

Show moral support

- A simple "thank you," a supportive sign, or checking in on neighbours goes a long way to keeping spirits strong.

Stay safe and informed

- Please continue following official updates, respect evacuation orders, and wait for official notice before returning home.

Thank you, Kings County. Your offers of support show the strength and resilience of our community. Together, we will get through this.
