

# Preparedness TIP

## Family Emergency Plan

Plan how your family will stay in contact if separated by a disaster.

- Pick Two meeting places:
  1. A location a safe distance from your home in case of fire
  2. A Place outside your neighbourhood in case you can't return home
- Choose an out-of-province friend as a check-in contact for everyone to call.
- Create an Emergency Information List that includes your contacts (family, friends, local authorities, etc. and evacuation routes)
